## LETTER OF RECOMMENDATION

It is with great excitement that I compose this letter of recommendation for **Ms. Panthangi Nikitha** whom I consider to be one of the outstanding students of understudies. I taught her "**Electrical Machines- 1**" and was her HOD for last three years of her pursuing Bachelor of Technology in Electrical and Electronic engineering. I have seen numerous cases of using her abilities and was quite impressed by her ideology and problem-solving techniques.

She has remarkable leadership qualities, which I have observed while she was Vice president for a department level club called "**Electrocruise**" for a year and continued as Technical lead for another year. I also had a chance to notice her decision-making skills and was truly dazzled by her courageous and creative steps while she was leading and organizing a department feast. She was also the first and most available among understudies for any kind of help to the faculty of the organization.

Nikitha is also efficient enough to grasp the most intricate concepts of Electrical machines and while putting the same to in real-time. It is her zeal and hard work which is the reason for her outstanding outcomes in academics as well.

Here by I strongly believe **Ms. Panthangi Nikitha** is great fit for already selected MS coursework and I feel the university will be happy and proud to incorporate such a talented student into their academic landscape.

  
**Dr.S. Venkateshwarlu**
