Phone No: 9701114325

LETTER OF RECOMMENDATION

Ms. Panthangi Nikitha is a phenomenal young student. I handled few core courses like “**Computer Methods in Power Systems**” and supervised her for “**Electrical Machines Lab**”. I knew her as one of the few finest students, demonstrating exceptional enthusiasm for learning new things. She has by far excelled and progressed well in the subjects she undertook in her 4-year course.

Nikitha is one of my favourite students, she always challenged herself academically. She is systematic in her course work especially regarding lab executions. Her creative approaches to solve problems diligently and helping her batch mates during lab sessions, persistently sets her apart from others. For instance, she came up with an idea of taking internship at Nagarjuna Sagar Power plant and completed it under my guidance, which is lively learning that is most important for courses like Electrical Engineering. It is this attitude and her consistent effort that benefited her peers and her juniors with better initiations.

Throughout her stay in our institution, **Ms. Panthangi Nikitha** proved herself a self-disciplined and extremely motivated student. She is well-read and articulate student. I am confident that Nikitha will excel in her graduate program with same consciousness and authenticity that she has shown during her undergraduate studies. I see her matured from a juvenile to experienced software professional.
